WELCOME TO GLAM STUDIOS!

➞ What to Wear

Solid color outfits photograph well because they tend to be classic. Grey tones, white, black, or any color that will compliment your skin tones are usually my recommendation.

➞ The Make Up Experience!

The make up session is included with your headshot photo experience to ensure your portraits are just like you dreamed of.

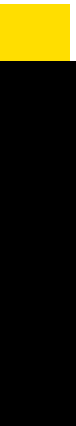

Our professional make up artist will make sure you have a natural, yet sophisticated look for your headshot portrait. Feel free to tip her afterwards as she is out of this world FANTASTIC and TALENTED!

Posing

IT IS NOT AS COMPLICATED
AS YOU WOULD THINK!

Believe me, it is so very easy to do a session like this one! We will have so much fun together!

Next thing you know, you will be headed home wondering why the make up took longer than the session!

It is because posing is actually quick and easy and the make up is actually a bit more intricate!

Below are some examples of one of my sessions! Very easy poses that are effortless! I promise to guide you during the session! You can practice them at home too!

Standing and sitting poses as easy as 1,2,3!

Are you ready?
